UC RIVERSIDE
Undergraduate Admissions

Question	Answer(s)
What is there to do for fun off campus in Riverside?	Yes! I love downtown Riverside especially!
What's the student environment like? Cut-throat v collaborative, for example?	Definitely collaborative! Everyone works together online and in person.
Are in-person tour available?	Currently it is not in person. We may begin campus tours later this spring so stay tuned. In the meantime, check out: admissions.ucr.edu/visit for tour information.
Has Elysha or Precious been in AFRO Hall? What is it like not being or being in the AFRO Hall?	I was good friends with a lot of the people in PATH (Pan African Themed Hall). It is incredibly social! I loved being able to go in and out.
How do you travel from your dorm to your classes?	Not too far of a walk, but I used nickel board! [It's the] perfect size to carry around. Scooter, skateboard, or walking works, too. I've seen roller skates.
Is there a club fair or something where we can see all the student organizations and clubs at UCR?	Some of us mentioned "tabling." Clubs set up tables around campus (usually every Wednesdays). During virtual learning, there is virtual tabling at studentlife.ucr.edu/virtual-tabling.

How was the school hours? What was your schedule like as a freshman?	Class hours are between 8 a.m. (earliest) and 10 p.m. (latest). Schedule changes every quarter.
How does someone go about joining a club? That whole process still seems a little blurry to me.	Highlander Link is the online hub for all organizations! I would start there: highlanderlink.ucr.edu
How do you apply for jobs on campus?	I would start with the Career Center. You can find jobs anywhere on campus through their site: careers.ucr.edu
To Davina: Have you been able to apply your statistics knowledge and work in the business or finance field and if so, what hands-on experience, opportunities, or projects did you have?	Yes, with a Stats background, you can work ANYTHING. I'm actually job searching and looking into marketing/finance positions. I learned from Highlander Statistics Society Club - data cleaning, making charts using R, Excel. I've been learning Python and SQL and Tableau on my own too!
How would you advise someone like me, who's a bit too quiet at times?	Definitely go easy on yourself and remember most people are a little quiet too! I would start with an organization you're passionate about and that you would feel comfortable speaking freely in!
