How to Get into Your Major
Students who complete the following are admitted to UCR:

Breadth Requirements – You are strongly encouraged to focus on preparatory
course work (mathematics, science and technical work) for your desired
major rather than completing the Intersegmental General Education Transfer
Curriculum (IGETC). However, BCOE does accept completion of IGETC as
satisfying the majority of breadth requirements. Additional breadth coursework
may be required after enrollment at BCOE.

Prerequisites – Strong technical preparation is essential for success in the
admissions process and, subsequently, in all coursework at BCOE. If you intend
to transfer to an engineering major, you are expected to complete the equivalent
of UCR coursework required in the first two years of the programs and apply for
transfer starting your junior year. Visit ASSIST.org to see the prerequisites you
must take for your intended major (and to make sure your classes will transfer).

Minimum GPA – Strive to surpass the 2.8 minimum GPA.
