Hello! My name is Heidi and I’m working on my Bachelor’s in Business Administration. I have a great passion for marketing. Last summer I had an internship with a small start-up company where I had the opportunity to develop their social media branding. I gained a lot of great skills from this internship and I am looking forward to applying what I have learned in a career position.

I noticed on your company’s website that you do a lot of work in _________ and I was interested in learning more about that aspect of your business.

Navigating Tips

Walk around technique:

Personality Matching Technique:

• Be aware of the voice (tempo and pitch).
• Physical characteristics (facial expressions and posture).
• The recruiters are the faces and personalities of the company and are looking for candidates like themselves to represent the company mission, values, etc.

Inquire:
If you see a company that you really want to work for, but they are not hiring for your field or area of interest…. what can you do?

• Approach the recruiter and ask: “Who should I contact in your company for a position in my field” (ie. Computer programming)?
• You MUST get their name and phone number to follow up if they forward your resume to another department in the company.
Before Leaving The Fair

- Go back to the companies you really want to work for and wait until the recruiter is free, then thank him/her/them for their time.
- They may be reviewing 50-100 resumes, and it is best if they can remember your name and face over the other candidates!

The lasting impression is very important for future contact!!
