The Graduate Division and Computing and Communications (C&C) are pleased to announce the availability of a new campus survey tool known as Qualtrics.

Information

Qualtrics is a powerful platform for administering online surveys. The system has many advantages over other online platforms such as SurveyMonkey, most notably in its greater range of features to create innovative survey designs, an official UCR branding, and a high level of data security.

How to Obtain

You have access to Qualtrics using your normal UCR credentials as follows:

- > You may access Qualtrics at the following web address:
<http://ucriverside.qualtrics.com>
- > You will login via your UCR NetID and password

Qualtrics Survey Tool:

<https://sitelicense.ucr.edu/qualtrics.html>

<http://ucriverside.qualtrics.com>

- Login with your UCR NetID
- Can create surveys, collaborate (share) with anyone who has a NetID (including students)
- Can learn A LOT about building surveys on Qualtrics' support website:
- <https://www.qualtrics.com/support/>

To analyze your assessment data, use this (or Excel)

As of January 1st, 2016, Computing & Communications maintains a UC-wide site license agreement for IBM's SPSS software. Our license is now the Premium offering. SPSS is available to students, faculty, and staff affiliated with UC Riverside and may be installed on University-owned computers. Optionally, SPSS AMOS is available.

SPSS is installed on UCR public computer lab computers for use by UCR students.

Current Software Version: SPSS 24 Premium
Modules Available: IBM SPSS Statistics Premium Edition (as of January 2016) ([comparison chart](#))
Availability: UCR Faculty and Staff on University-owned computers & UCR students on a personal machine
Platforms: Windows, Mac, Linux
License type: Annual
Expiration date: July 31
Pricing: Staff & Faculty no re-charge F/Y 2017-2018, Students - part of the [Student Technology Fee](#)

SPSS Premium 24 Statistical Data Analysis Tool: <https://sitelicense.ucr.edu/spss.html>

Faculty & Staff

Please email softwarelic@ucr.edu with the following information for an SPSS license:

Name:

Email (of person who will be installing if different than requestor):

Software requesting (SPSS 24 Premium):

Number of licenses (if multiple, please note if it is for a lab):

Operating System (and whether 32 or 64bit):

Software package (new) or license only (renewal):

ASSESSMENT GOALS FOR 2020

ASSESSMENT...WHAT'S NEXT?

1. Assessment Software Workgroup in process of reviewing assessment products to identify best student affairs assessment software suite for UCR
2. Assessment committee with Assessment Liaisons to form Jan 2020
3. Workshops on assessment methods open to all student affairs staff
 - Topics will include data entry, data analysis in Excel and SPSS, survey design in Qualtrics, and more!
4. Directors assess 1-2 programs & write an assessment report
 - **Hayden will teach you how every step of the way**
 - ***You will have time to do this during meetings***
 - ***You will write parts section at a time and then will be able to put together at the end***
5. Hayden is available for consultations via phone/meeting/e-mail 😊

HOW ASSESSMENT/SURVEY DATA HAVE BEEN USED:

- To compare our students' success to student success across the nation
- To know if students enjoy a department's programs and are learning
- To reclassify an employee's position
- To understand students' behavior and help them make healthy choices
- To justify the resources a department uses or the money they ask for
- To show our peer institutions why our programs are "better" than theirs
- These are some of the reasons that you can use assessment! Use assessment to show leadership why your programs matter and use assessment to focus on student progress and improving program development.
 - Students → Programs ← Assessment → Leadership/Outside world
 - Assessment influences leadership/outside world *and* programs and ultimately, students
