Program Highlights

Presentations: Recognizing & Responding to Distressed Students Presentations & Introductory Department Presentations

Student Support: We support students by engaging in one on one meetings, to promote overall health and well-being so students can focus on their academic success.

Faculty and Staff Support: We assist faculty and staff regarding students of concern through consultation; we help them get their students connected to appropriate on and off-campus resources.

Dedicated to Student Success

Our department supports student success by providing problem-solving support, resources, and advocacy for external challenges that are impacting a student's personal and/or academic success. We help students prioritize and remove barriers so they can succeed. A case manager's role is similar to a social worker.

QUICK FACT

We are all licensed mental health clinicians in a non-clinical role with a combined 35-40 years of clinical experience.

"Case Management saved my life and academic success. One of the best resources on campus that I recommend to everyone at UCR."
