Version	Date	Name	Description
1	1/22/15	M Stewart	Initial procedures for Version 8
2	6/26/18	M Stewart	Initial procedures for Version 9.3.5
3	8/13/18	M Stewart	Revise V 9.3 procedures – updated look and access to fields for querying
4	9/17/18	M Stewart	Combine cross-listing “like” sections with these procedures. Also removed steps on adding a course section (referenced appropriate procedures)
5	4/8/20	M Stewart	Update screen shots to current Banner 9 appearance

INTRODUCTION AND PURPOSE

The purpose of this document is to demonstrate how to cross-list a course section in Banner. This document will address the cross-listing of approved course partners as well as cross-listing of “like” sections (two or more courses that share like content and have the same day, time, instructor, and classroom).

RELATED POLICIES, REGULATIONS, GUIDING PRINCIPLES, AND COMMON PRACTICES

To maintain and produce quarterly class offerings and the Schedule of Classes publication. A course with cross-listed partners must be approved by the Committee on Courses. If one cross-listed partner is being offered in a term, all approved cross-listed partners must be offered as well. One of the cross-listed partners is to be the designated primary department. **The primary department will be responsible for adding all the course sections and cross-listing all the partners of a cross-listed course.**

Effective Winter 2019, departments may enter in Banner selected “like” course sections as “cross-listed” partners to ensure (1) the sections are counted as one entity for compliance purposes; (2) combined maximum enrollment will not exceed the assigned classroom; and (3) classroom assignments will remain scheduled in 25Live. “Like” course sections include the “regular” and Honors version of the same course, as well as an undergraduate and graduate level version of a course that covers the same academic content.

IMPACTED DEPARTMENTS, UNITS, PROGRAMS, AND CENTERS

1. Registrar’s Office
2. Academic Departments
3. College Offices

BEFORE YOU BEGIN

If this is the first time you are reviewing this procedure, go to R’ Space and select the Banner Training icon in order to follow along and practice. Please submit a ticket if you have trouble accessing Banner Training.

PAGES

The pages listed below are covered in this training.

Page	Page Name	Description
SSASECT	Schedule	Place of section creation and where Cross List Group Identifier appears when cross-listing is completed
SSAXLSQ	Schedule Cross List Query	Identify available Cross List Group Identifier codes
SSAXLST	Schedule Cross List Definition	Page where Cross List Group Identifier is selected, maximum enrollment of all cross-listed partners of that section is entered, and where the CRN's of cross-listed partners are entered
SSADETL	Schedule Detail	Add P or S to identify the primary and secondary departments

PROCEDURES

ADDING CROSS-LISTED PARTNERS OF A COURSE

If a cross-listed course is being offered in a given term, all of its approved partners must be offered as well. If the course has two or more approved schedule types (course activities) with group contact hours, all of these activities need to be added as well. And, all “like” course sections that will be cross-listed need to be added in the given term.

STEPS

- For information on adding a course section, please refer to procedures “**Add a Course Section in Banner.**”
 - At this time, do not enter a value in the **Cross List** field.
- For information on adding multiple sections with link identifier codes (to link multiple schedule types/course activities), please refer to procedures “**Create Multiple Sections with Link Identifier Codes.**”
- Notate the **CRNs** of the sections to be cross-listed.
- Following are examples of the **lecture** section of cross-listed course **BUS/STAT 104**:

The screenshot displays the Banner system interface for adding a cross-listed course section. The interface is organized into several sections:

- Course Section Information:** This section contains fields for Subject (BUS), Course Number (104), Title (DECISION ANALYSIS&MGMT SCII), Campus (Riverside), Status (Active), Schedule Type (Lecture), and Instructional Method (In-Person). It also includes fields for Grade Mode, Session, Special Approval, Duration, and an Override Duration checkbox.
- CLASS TYPE:** This section includes fields for Part of Term (1), Start Date (09/27/2018), End Date (12/07/2018), and Credits (10). It also has fields for Open Learning Class, Registration Dates, Start Dates, and Maximum Extensions.
- CREDIT HOURS:** This section includes fields for Credit Hours (0.000 to 4.000), Billing Hours (0.000 to 4.000), and indicators for None, To, and Or. It also includes fields for Lecture (0.000 to 3.000), Lab (0.000 to 3.000), and indicators for None, To, and Or.

CROSS-LISTING PARTNERS

A set of cross-listed partners or a set of “like” course sections is identified by the Cross List Group Identifier code (which contains two characters) assigned to that cross-listed set.

STEPS

1. Navigate to **SSAXLST (Schedule Cross List Definition)**.
2. In **SSAXLST**, verify the desired term is displayed in the **Term** field.
3. To find a **Cross List Group Identifier** code for lectures **BUS 104 001** and **STAT 104 001**, you first need to see which codes have already been assigned to other cross-listed partners for that term:
 - a. Next to the **Cross List Group** field, click the **List of Values** button (contains three dots) to bring up query page **SSAXLSQ (Schedule Cross List Query)**.
 - b. In the **Term** search field, enter **201840**.
 - c. In the **Cross List** search field, enter a letter (e.g., **B**) and the **Banner wildcard symbol (%)**. **B** is used in this example, but other letters can be utilized too.
 - d. Click **Go**. The search results will display; see following:

Term	Cross List	Maximum Enrollment	As
201840	B1		10
201840	B2		17
201840	B3		17
201840	B4		0
201840	B9		10
201840	BA		19
201840	BB		20
201840	BC		150
201840	BD		15
201840	BE		15
201840	BF		80
201840	BG		80
201840	BH		15
201840	BI		75

- e. For cross-list group identifier codes **starting with B**, codes **B1 through BI** have already been assigned to a set of cross-listed partners.
 - i. Thus, code **BJ** is available for cross-listed partners **BUS 104 001** and **STAT 104 001**.
 - ii. This cross-list group identifier code will be assigned only to the lecture activity of this cross-listed course.
4. Click on the **X** at top left of page to close **SSAXLSQ** and return to page **SSAXLST**.
 5. In **Cross List Group** field, enter **BJ**.
 6. Click **Go**.
 7. Enter in the **Maximum Enrollment** field the total maximum enrollment of all the cross-listed partners that will be tied to this **Cross List Group Identifier**.

- a. This maximum enrollment value controls student enrollment in all of the cross-listed partners under the designated Cross List Group Identifier.
8. In the **CRN** field under the **Cross List Section** heading, enter the **CRN** of the **first cross-listed partner**. Applicable course data will populate in the fields of that record.
9. Click the **Insert** button across from the **Cross List Section** heading.
10. In the next open **CRN** field, enter the **CRN** of the **next cross-listed partner**.
11. If needed, repeat **steps 9 and 10** until all **cross-listed partners** that go with the designated **Cross List Group Identifier** are entered.
12. **Save**.

IDENTIFYING PRIMARY AND SECONDARY CROSS-LISTED PARTNERS

The final step in cross-listing partners is to identify which partner is the primary department and which partner or partners is the secondary department. This is necessary because the primary department is responsible for administering all sections of all partners of a cross-listed course. Proper identification of the primary and secondary departments ensures any communication regarding the course or its scheduling is directed to the correct department scheduling contact. If a course section assesses a Course Materials Fee (CMF), the proper identification of the primary and secondary departments also ensures the correct fee assessment. It is important that each department ensure that the correct section activity (i.e., lab, lecture, etc.) be coded with the correct CMF each quarter so that students are charged the appropriate fee one time instead of zero or multiple times. For more information, please see procedures “**Remove and Update Course Materials Fees.**”

STEPS

1. **First example:** utilizing the CRNs created and cross-listed as an example, the **BUS 104 lecture** will be identified as the **primary cross-listed partner**, and the **STAT 104 lecture** as the **secondary cross-listed partner**.
2. Navigate to **SSADETL (Schedule Detail)**. Enter applicable term and CRN,
 - a. in this example, the term is 201840 and the CRN of the primary section **BUS 104 001** is **11628**.
3. Click **Go**.
4. Click **Contract and Block Schedule Information** tab.
5. In the **Contract** field below the **SECTION CONTRACTS** heading, enter **P** for the primary section and **Tab**. The description “**Primary Cross-listed Section**” will populate.
6. **Save**; see following:

The screenshot shows the SSADETL (Schedule Detail) interface. At the top, the header bar includes the title "Schedule Detail SSADETL: 3.15 (PPROXE)" and navigation icons. Below the header, the search criteria are displayed: Term: 201840, CRN: 11628, Subject: BUS, Course: 104, Title: DECISION ANALYSIS&MGMT SCIENCE. A "Start Over" button is located to the right. The main content area has four tabs: "Section Links and Corequisites", "Section Fees", "Degree Program Attributes", and "Contract and Block Schedule Information". The "Contract and Block Schedule Information" tab is selected. Below the tabs, the "SECTION CONTRACTS" heading is followed by a table with columns: "Contract", "Description", "Percentage", and "Primary Indicator". The table contains one record where the "Contract" field is "P" and the "Description" field is "Primary Cross-listed Section". The "Percentage" and "Primary Indicator" fields are empty. At the bottom of the table, there are navigation controls including "1 of 1" and "Per Page".

7. Click **Start Over**.
8. Verify the desired term and enter the CRN at the top.
 - a. In this example, the **CRN** of the secondary section **STAT 104 001** is **19777**.
9. Click **Go**.
10. Click **Contract and Block Schedule Information** tab.
11. In the **Contract** field below the **SECTION CONTRACTS** heading, enter **S** and **Tab**.
 - a. Description “**Secondary Cross-listed Section**” will populate.
12. **Save**; see following:

FINAL QUIZ

1. True or False: Each department/partner of a cross-listed course is responsible for entering their sections of their partner, but the primary department cross-lists the partners.
 - a. **False.** The primary department administers all sections of all partners of a cross-listed course.
2. Name two examples of “like” course sections.
 - a. **The “regular” and Honors versions of a course.**
 - b. **Undergraduate and graduate level courses covering the same academic content.**
3. What is the name of the page where cross-listing partners is done?
 - a. **SSAXLST**
 - b. Extra point – what is the page’s name description? (**Schedule Cross List Definition**)
4. Cross-listing sections is based on the _____.
 - a. **CRN**
5. True or False: the same Banner page used to cross-list approved subject partners is also used to cross-list “like” course sections.
 - a. **True**
6. What query should be used to determine if a Cross List Group Identifier code is available for use that term?
 - a. **SSAXLSQ (Schedule Cross List Query)**
7. Entering the primary or secondary department code on each cross-listed partner is done on page SSADETL on the _____ tab.
 - a. **Contract and Block Schedule Information**
8. On page SSADETL, identifying one of the “like” course sections as the _____ section ensures only one course section is counted when evaluating prime/nonprime time scheduling compliance.
 - a. **primary**
